Air Pollution, ATS555  
Colorado State University  
Fall 2014  
Mondays and Wednesdays @ 4:00 – 5:30  
Room: Wagar 132

**Instructor:** Dr. Jeffrey Pierce &lt;jeffrey.pierce@colostate.edu&gt;, ATS 220  
http://pierce.atmos.colostate.edu  
**Office hours:** ENGR A205C (Changing to A102F mid-Sept) Wednesdays 9:15-10:30

**Teaching assistant:** Stephen D'Andrea (sdandrea@atmos.colostate.edu)  
**Office hours:** ENGR A205C(Changing to A102F mid-Sept) ...

**Prerequisites:** CHEM 113 and (MATH 261 or MATH 340) and (PH 122 or PH 142).

**Class Website:** Blackboard for ATS555 (https://ramct.colostate.edu/)

**Objectives:**

Our overall goal will be to develop a working knowledge of basic air quality issues. Specific objectives include:

1. Develop an understanding of types and sources of air pollution.
2. Examine concentrations of air pollutants and their effects on health and welfare. Review regulations governing air pollution.
3. Examine the meteorological factors that contribute to air quality degradation.
4. Examine the basic chemistry of the atmosphere and how it contributes to secondary pollutant formation.
5. Consider methods for air pollution measurement and control.
6. Examine regional and global air pollution issues.

**Course structure:**

The course is offered for three credits. The class is conducted in a lecture/discussion format.

One **mid-term** and one **final examination** will be given.

A short **term presentation** on an air quality topic is required. The presentations will
be in the second half of the course. Details on format and timetable will be discussed later.

Several homework assignments will be made during the semester.

**Grading:**

- Homework ..................... 30%
- Midterm test .................. 20%
- Final exam ..................... 30%
- Term presentation........... 15%
- Participation .................. 5%

CLASS POLICIES

UNIVERSITY POLICIES: Students are expected to follow the CSU Student Honor Pledge (http://tilt.colostate.edu/integrity/honorpledge/). This course will adhere to the CSU Academic Integrity Policy as found in the General Catalog (http://www.catalog.colostate.edu/FrontPDF/1.6POLICIES1112f.pdf) and the Student Conduct Code (http://www.conflictresolution.colostate.edu/conduct-code). At a minimum, violations will result in a grading penalty in this course and a report to the Office of Conflict Resolution and Student Conduct Services.

POLICY ON COLLABORATION: Students are encouraged to discuss homework assignments. However, each student must complete their own assignment. If I determine that students are simply copying assignments, I will pursue action through the Office of Academic Integrity (http://tilt.colostate.edu/integrity/). Any copying on tests will be similarly not tolerated.

POLICY ON LATE HOMEWORK ASSIGNMENTS: Late homework assignments will not be accepted, but I will drop the assignment with the lowest score.

POLICY ON REMARKING TESTS AND HOMEWORK: Students who disagree with how their assignment, test, or project has been marked should resubmit their work with a written explanation of their concern. The work will be re-evaluated by the instructor in its entirety.

POLICY ON MISSED TESTS: Alternative arrangements for completing missed tests will be made given the submission of appropriate documentation.
